RE: Connect America Fund, WC Docket No. 10-90; Lifeline and Link Up Reform and Modernization, WC Docket No. 11-42 - Correction to FCC Form 481 - Cumby Telephone Cooperative, Inc.

Dear Ms. Dortch:

Cumby Telephone Cooperative, Inc., (the Cooperative) Study Area Code 442065, found an error on its Attachment (Line 700 Voice Rate Data) reported in the FCC Form 481, filed at the Commission on July 1, 2014. The Cooperative is enclosing the cover letter and the FCC Form 481 with the corrected Attachment previously filed at the FCC in accordance with the annual reporting requirements of 47 C.F.R. §§54.313 and 54.422.

The Attachment has also been refiled with the USAC and the Public Utility Commission of Texas.

Please contact me if you have any questions.

Sincerely,

Lisa A. McLaughlin Authorized Representative for

Cumby Telephone Cooperative, Inc.

RE: REQUEST FOR CONFIDENTIAL TREATMENT - Connect America Fund, WC Docket No. 10-90; Lifeline and Link Up Reform and Modernization, WC Docket No. 11-42

Request that Information Submitted to the Commission be Withheld from Public Inspection Pursuant to 47 C.F.R. §0.459 and 5 U.S.C. §552(b)(4): Five-Year Service Quality Improvement Plan included in FCC Form 481

Confidential Financial Information – Subject to Protective Order in WC Docket Nos. 10-90, 07-135, 05-337, 03-109, CC Docket Nos. 01-92, 96-45, GN Docket No. 09-51, WT Docket No. 10-208, Before the Federal Communications Commission

Dear Ms. Dortch:

In accordance with the annual reporting requirements of 47 C.F.R. §§54.313 and 54.422, Cumby Telephone Cooperative, Inc. (the Cooperative), Study Area Code 442065, is submitting a completed FCC Form 481 to the Commission via its Electronic Comment Filing System (ECFS) in WC Docket Nos. 10-90 and 11-42. The Cooperative, by its authorized representative, hereby requests confidential treatment of two attachments to its FCC Form 481: (1) the five-year service quality improvement plan and (2) the financial annual report, both of which were redacted in the ECFS submission. The request for confidential treatment of the five-year plan is being made pursuant to section 0.459 of the Commission's rules and Exemption 4 of the Freedom of Information Act (FOIA). The request for confidential treatment of the financial annual report is being made pursuant to the FCC's November 16, 2012 *Protective Order* in WC Docket No. 10-90 *et al.* These attachments contain competitively sensitive data that Cumby Telephone Cooperative, Inc. maintains as confidential and does not normally make available to the public. Release of this information would have a substantial negative impact on the Cooperative.

Ms. Mariene Dortch July 1, 2014 Page 2

Five-Year Service Quality Improvement Plan

Pursuant to section 0.459 of the Commission's rules and Exemption 4 of FOIA, Cumby Telephone Cooperative, Inc. requests that the text and data extracted from its five-year service quality improvement plan be withheld from public inspection because it contains competitively sensitive commercial and financial information that the Cooperative keeps confidential. Public availability of this information would have a substantial negative impact on the Cooperative.

In accordance with Section 0.459 of the Commission's rules, the following information is provided in support of this request:

(1) Identification of the specific information for which confidential treatment is sought:

Attachment to Line 112 of FCC Form 481 – Five-Year Service Quality Improvement Plan. Specifically, confidential treatment is sought for all information in the five-year plan related to the Cooperative's access line counts, existing broadband capabilities, and its network investment plans through 2019 that will improve service quality for its customers.

(2) Identification of the Commission proceeding in which the information was submitted or a description of the circumstances giving rise to the submission:

The information was submitted in WC Docket Nos. 10-90 and 11-42 as an attachment to FCC Form 481- the Carrier Annual Reporting Data Collection Form. Section 100 of FCC Form 481 requires incumbent local exchange carriers receiving high cost support to attach a five-year service quality improvement plan, pursuant to 47 C.F.R. §§54.202(a)(1)(ii) and 54.313(a)(1).

(3) Explanation of the degree to which the information is commercial or financial, or contains a trade secret or is privileged:

The five-year service quality improvement plan contains granular information on the Cooperative's access line counts and existing broadband capabilities as well as detailed plans for financial investments in its network through 2019 to improve service to subscribers. This is closely guarded, privileged information that the Cooperative does not make publicly available.

(4) Explanation of the degree to which the information concerns a service that is subject to competition:

Broadband is subject to increasing competition in the areas served by rural, rate-of-return incumbent local exchange carriers (RLECs). Virtually all RLECs face competition from one or more wireless Internet service providers. Most RLECs also face competition from at least one other wireline broadband provider such as a larger cable company, who will typically seek to "cherry pick" the lower cost portions of the study area. In addition, all RLECs face competition throughout their territories from satellite broadband providers.

Ms. Mariene Dortch July 1, 2014 Page 3

(5) Explanation of how disclosure of the information could result in substantial competitive harm:

Disclosure of the information contained in the five-year plan would provide competitors with detailed, granular information regarding the Cooperative's access line count, its existing broadband capabilities, and its strategic plans for network investments. This would give competitors invaluable confidential information with which to develop their own strategies for investing in the service area, thereby bringing substantial competitive harm to the Cooperative.

(6) Identification of any measures taken by the submitting party to prevent unauthorized disclosure:

The Cooperative has continually treated the extracted information in its five-year plan as confidential and carefully controls the information to protect it from competitors. Access to the information is limited to employees that require it and to non-employees with confidentiality obligations such as lenders, consultants, auditors, and attorneys. In addition, when such information is required to be submitted to a state regulatory authority it has been filed as confidential information, not available to the public.

(7) Identification of whether the information is available to the public and the extent of any previous disclosure of the information to third parties:

The redacted information in the five-year plan is not available to the public, and third party access is limited as described in (6) above.

(8) Justification of the period during which the submitting party asserts that material should not be available for public disclosure:

The Cooperative requests that the extracted information be withheld from public inspection indefinitely. Although the information reflects the Cooperative's service improvement plans for a five year period, it would provide a very useful baseline for competitors for several years beyond that period.

(9) Any other information that the party seeking confidential information treatment believes may be useful in assessing whether its request for confidentiality should be granted:

Exemption 4 of FOIA shields from public disclosure commercial or financial information obtained from a person that is privileged or confidential. Based on the responses provided above, the information in question satisfies this test.

Financial Annual Report

Section 3005 of FCC Form 481 requires a privately-held rate-of-return carrier receiving high cost support to attach a full and complete annual report of the Cooperative's financial condition and operations pursuant to 47 C.F.R. §54.313(f)(2). Cumby Telephone Cooperative, Inc. seeks confidential treatment of its financial annual report pursuant to the November 16, 2012 *Protective Order* in WC Docket No. 10-90, et al.¹ The *Protective Order* specifically covers information filed pursuant to 47 C.F.R. §54.313(f)(2).

Ms. Marlene Dortch July 1, 2014 Page 4

Cumby Telephone Cooperative, Inc. is providing to the Office of the Secretary, under seal, this cover letter and the Form 481 filing which includes the confidential information that is being requested to be withheld from public inspection.

Each page of the five-year service quality improvement plan confidential submission bears the legend, "CONFIDENTIAL - NOT FOR PUBLIC DISCLOSURE."

Each page of the financial annual report confidential submission bears the legend, "CONFIDENTIAL FINANCIAL INFORMATION - SUBJECT TO PROTECTIVE ORDER IN WC DOCKET NOS. 10-90, 07-135, 05-337, 03-109, CC DOCKET NOS. 01-92, 96-45, GN DOCKET NO. 09-51, WT DOCKET NO. 10-208, BEFORE THE FEDERAL COMMUNICATIONS COMMISSION."

Two copies of the Form 481 filing in redacted form and an accompanying cover letter are also being provided with the confidential filing. Each page of the redacted filing and accompanying cover letter is marked "REDACTED - FOR PUBLIC INSPECTION."

Two copies of this cover letter and the Form 481 filing with the confidential information are also being delivered to Mr. Charles Tyler, Telecommunications Access Policy Division, Wireline Competition Bureau.

The confidential information has also been submitted to the Universal Service Administrative Company through its E-File system as an attachment to the FCC Form 481.

This cover letter includes no confidential information and the text is the same in both the non-redacted and redacted versions except for the confidentiality markings.

Please contact me if you have any questions.

Sincerely,

Lisa A. McLaughlin

LINE 112 - FIVE-YEAR SERVICE QUALITY IMPROVEMENT PLAN

Following is the initial five-year service quality improvement plan for Cumby Telephone Cooperative, Inc. ("Cumby" or "the Cooperative") pursuant to 47 C.F.R. § 54.202(a)(1)(ii) that requires an eligible telecommunications carrier (ETC) to describe proposed improvements or upgrades to the ETC's network throughout its service area. The *USF/ICC Transformation Order* establishes a public interest obligation for rate-of-return ETCs to provide broadband service at speeds of at least 4 Mbps downstream and 1 Mbps upstream (4:1) "upon reasonable request." A service quality improvement plan cannot project where in the service area reasonable requests will be made. However, the proposed service improvements in this plan result in the availability of 4:1 or better service to a greater portion of the Cooperative's service area than is currently available.

Although this plan is a good faith effort by the Cooperative, it is subject to change, given the uncertainty faced by ETCs regarding whether capital investments will be recoverable over the five year planning horizon. Factors that may affect the capital improvements plan include erosion of the customer base due to competition, alternative technologies, economic conditions in the service area, and unpredictable changes in the universal service support amounts an ETC receives.

Cumby owns and operates one exchange serving subscribers located in East Texas. The service area includes portions of Hopkins and Hunt counties. The service area covers approximately 51 square miles.

LINE 510 - SERVICE QUALITY STANDARDS AND CONSUMER PROTECTION RULES COMPLIANCE

Cumby Telephone Cooperative, Inc. (the Cooperative) complies with applicable service quality standards and consumer protection rules as required by the Public Utility Commission of Texas (PUCT) and the Federal Communications Commission.

The rates, terms, and conditions under which the Cooperative operates are outlined in its Local Exchange Tariff, which is approved by the PUCT. The Cooperatives tariff contains provisions regarding its customer service and protection practices, including resolving disputes with the Cooperative, applying for service, the classification of business and residential rates, deposits, billing and payment for service, refusal, disconnection and cancellation of service. The tariff is available for customer review in the Business Office, as requested. Rates and terms of service are disclosed to customers upon application for service both verbally and in writing as part of a packet of information for new customers. Rates, applications and certain terms of service are also available on the Cooperative's website.

Service quality standards for voice service are established by the PUCT and the Cooperative consistently meets or exceeds the standards and provides reports to the PUCT, in accordance with the state commission rules.

With regard to broadband service, the Cooperative provisions its network and equipment to ensure that its customers can enjoy the speeds to which they subscribe. However, Internet speeds generally result from a "best effort" service and are dependent upon a number of variables, many of which are outside the control of the Cooperative.

Finally, the protection of customers' privacy and information is of utmost importance and the Cooperative has a policy and established operating procedures that comply with the FCC's Customer Proprietary Network Information Rules (47 C.F.R. §§64.2001-64.2011). Certification and a description of those operating procedures are filed at the FCC annually.

LINE 610 - ABILITY TO FUNCTION IN EMERGENCY SITUATIONS

Cumby Telephone Cooperative, Inc. (the Cooperative) is able to function in emergency situations. The Cooperative has a reasonable amount of back-up power to ensure functionality without an external power source. Standby power generators are supplied at the central office, remote switch sites, and repeater sites to ensure functionality without an external power source until power is restored. The network is capable of managing traffic spikes resulting from emergency situations.

The Cooperative is able to reroute traffic around damaged facilities. Although the Cooperative's ability to reroute traffic around damaged facilities is not absolute and may be limited in certain circumstances, there is a restoration plan in place for expeditious recovery of service, including splicing of damaged facilities when warranted.

LINE 1010 - VOICE SERVICES RATE COMPARABILITY

The Wireline Competition Bureau's most recent reasonable comparability benchmark for voice services is \$46.96, which includes the federal subscriber line charge ("SLC").

In the exchanges served by Cumby Telephone Cooperative, Inc., the highest single-line residential local rate, including any mandatory extended area service charge, is \$10.00. When the federal SLC and the state universal service fee are added, the total is less than the reasonable comparability benchmark of \$46.96.

LINE 1210 – TERMS & CONDITIONS OF VOICE TELEPHONY LIFELINE PLANS

Cumby Telephone Cooperative, Inc., (the Cooperative) provides qualified Lifeline Subscribers a Federal Lifeline discount of \$9.25 applied against the Subscriber Line Charge (SLC) of \$5.00 with the remainder applied to the stand-alone residence monthly local exchange access rate as outlined in its Local Exchange Tariff and a state Lifeline discount of \$3.50. The local exchange access line rate includes an unlimited amount of local calling minutes. Additional charges for toll calls associated with the stand-alone residential access line are billed at the rates of the long distance carrier chosen by the subscriber. Qualified Lifeline customers may also subscribe to Cumby Flex Pak and Cost Saver Entertainment for Residential customers with the same reductions applied against that portion of the package rate that is for basic network service (one line only). These plans include a long distance calling plan, internet and broadband services as well as a choice of optional services. Attached are the pages from the Cooperative's Local Exchange Tariff including pages describing the terms and conditions of Lifeline service.

C. Lifeline Program

The Lifeline Program is a retail local service offering designed to make telephone service available at reduced rates to qualifying low-income customers.

1. General

- a. A qualifying low-income customer subscribing to the Lifeline Program shall receive federal and state reductions to their monthly tariffed residential local exchange access line rate.
- b. Nothing in this section shall prohibit a customer who is otherwise eligible for the Lifeline Service from obtaining and using telecommunications equipment and services designed to aid such customer in utilizing qualifying telecommunications services.
- c. Lifeline Service reductions do not apply to surcharges, taxes, long distance service, 976, and other information related telecommunications services, and optional services such as custom calling features. Customers may obtain these services, where available, at their discretion.
- d. The Lifeline Service reductions do not apply to service connection charges.

C. Lifeline Program (Continued)

1. General (Continued)

- The Cooperative may not disconnect the service of a Lifeline Service e. customer for the non-payment of toll charges. However, the Cooperative reserves the right to implement toll blocking, at no charge, if the customer incurs a significant balance of unpaid toll bills. The Cooperative will inform the customer, by direct mail, of this change to their service due to the customer's non-payment of toll charges. Upon the customer's payment of all outstanding toll charges, the Cooperative shall remove mandatory toll blocking at no charge.
- f. Upon subscribing to the Lifeline Service, a customer will be offered a subscription, at no charge, to toll blocking service (in exchanges where technically available) which denies the customer access to the long distance telecommunications network; however, the customer is under no obligation to accept the subscription to toll blocking.
- The Lifeline Service rate reductions will not be available on a T h. retroactive basis unless approved by the Public Utility Commission of Texas or the Low-Income Discount Administrator (LIDA).

2. Designated Lifeline Services

The Cooperative shall offer voice telephony services that provide the following functionalities as designated Lifeline Services:

- Voice grade access to the public switched network or its functional a. equivalent;
- Minutes of use for local service provided at no additional charge to b. the customer:
- Access to emergency services; C.
- Toll blocking service. d.

Independent Auditor's Report

The Board of Directors
Cumby Telephone Cooperative, Inc.
Cumby, Texas

We have audited the accompanying consolidated financial statements of Cumby Telephone Cooperative, Inc., which comprise the balance sheets as of December 31, 2013 and 2012, and the related consolidated statements of operations, comprehensive income, changes in members' equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Cumby Telephone Cooperative, Inc. as of December 31, 2013 and 2012, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 12 to the financial statements, management has elected to change its method for accounting for the investment in cellular partnerships in 2013. Our opinion is not modified with respect to that matter.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The comparative balance sheets, statements of operations, and cash flows on pages 25 through 28, are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.
